

Make a set of cards. Each card will have one of the 10 great Western philosophers one side, and a fact about them on the other side. Given two philosophers, and a fact about one of them, be able to say which philosopher it is true for.

#### Facts for the game

- What country did they live in?
- What century did they live in?
- What are their favorite concepts?
- What are their great ideas?
- What are great or interesting quotes from their texts?
- What are their greatest books?
- What are interesting facts about them?
